Dear Mr Atkins,

As you know, I have been asked by Bertrand Bernard of Good Example Solicitors to prepare a psychiatric report in relation to your experiences in June 2007. I would like to confirm our appointment for

Monday 7 December at 11:30am

at

your home address

The interview will take around 3 hours. I will be asking you about what happened in early 2007, how you have been since and something about your past history and how you have coped with other major stresses. It would be very helpful if I could also talk to someone who knows you well, ideally from before the incident. A relative is suitable, or a close friend. If possible, it would be good to meet with this person at around 1:30pm. If they are unable to make it, or you decide you don't want to involve anyone else, we can still go ahead.

I would like to see any medication that you are taking at the moment, especially if you are on any painkillers or tablets prescribed for your nerves.

I look forward to meeting you shortly.

Yours sincerely

Dr Lesley Haines
Independent Psychiatrist
